WOMEN COMPOSITORS IN BOSTON INDIG-NANT AT INDECENT "COPY."

Avery & Company Decide to Break a Contract Rather Than to Print a Work Which They Think is Unfit for the Eyes f Respectable Men and Women-Theb ness Interrupted by Clamering People.

[SPECIAL TO THE WORLD.] w, Dec. 18.—Rand, Avery & Co., printers, horize the publication of the following letter

Rev. Justin D. Fulton, D. D., yesterday, at Music Hall, before perhaps 4,000 people, made the most ramarkable attack upon this house ever heard in the history of any printing house in America, and, however much we may wish to remain silent, it seems necessary to place ourselves right before the rabble.

public.

Dr. Fulton, perhaps, can afford, for the sake of advertising his book, to take the stand ne has, but such notoriety is decidedly hurtful to us. We know that the best way to crush it is by remaining sthent; but the attack has been so bold and the statements so pronounced that already we are bestinning to feel the affect upon our business. This hone would justify us in placing this peculiar controversy before the public, for this is evidently no ordinary quarrel.

DENOUNCED AS COWARDS.

DENOUNCED AS COWARDS.

Here's a celebrated preacher laying before the public not only his grievances, but publicly dehocuted as cowards the managers of one of the largest, oldest and most honorable printing and publishing establishments of this country. A company with a record of almost fifty years—whose name is interwoven into the history of American literature—whose imprint appears on thousands upon thousands of books devoted to religious, educational, moral, intellectual topics of yvery class. A corporation under the laws of Massachusetts with a paid-in capital of \$200,000, amploying several hundreds of people, and in yeary way responsible for its contracts.

Now comes this Dr. Fulton and publicly proclaims that we made a contract to print his book, entitled, "Why Priests Should Wed;" that we took his manuscript and, after having it in our hands for a number of days, and after putting into type over one hundred pages, we stopped work and refused to fulfil our contract. He also says that we refuse not only to print his book, but to return his manuscript or to allow any other house to print it.

All this we admit. But we deny absolutely his

DR. FURTON'S STATEMENT.

DR. Pulton says the reason for our refusing to complete his book is that the Roman Catholic Church has brought succe pressure to bear that we have not the courage, that we are opposed to his doctrines, &c., that the policy of this house is dictated by the heads of the Roman Catholic Church. He has publicly called upon his audiences to incite the Protestant people of Boston to bring all possible pressure to compel us to fulfil our contract.

possible pressure to compel us to fulfil our contract.

That this is no ordinary controversy is shown to us to-day by a remarkable state of affairs. Our office has been besieged by so many men and women insisting upon our going on with this obscene work that it has almost been impossible to carry on our legitimate business. Our mail to-day has been so crowded with gailing letters instigated by this preacher that it has almost been impossible to attend to our legitimate correspondence. The majority of these letters appeal to us to go on with Dr. Fulton's books; but others threaten us if we dare go on. Think of one man being able in a single day to so disorganize the routine of a legitimate business concern that, if it continues, serious results may follow.

PACTS IN THE CASE.

PACTS IN THE CASE.

Now, what are the facts?

Dr. Fulion madelalcontract with the head of our book department for the printing of a book called. Why Priests Should Wed." before the manuscrips was submitted, and really before it was wholly completed. Dr. Fulton says he supposed that we knew what the book contained; that we ought to have known from the fact that he has been preaching on this subject for sixteen weeks in this vicinity. We did know that he was preaching against the Roman Catholic religion, and right here we wish to place ourselves upon record as being perfectly willing to print any book for or against the Catholic Church: that is, we are a printing house; our business is to do every kind of brinting for any person, provided that the matter is fit for publication. We do not take sides with any sect; making books is our business, and hardly a day passes without work being rolled off of our preases for both Catholics and Protestants. Only last week we made for Dr. Fulton his work called "Rome in America," a book that opposes the Roman Catholic Church fully as strongly as his "Why Priests Should Wed." We have just finished Martin Garrison's handsome "Life of Pope Leo," and also a translation of the Pope's poems. We have recently printed a book on Mormonism, and are now completing some of those gigantic twenty-six volumes of the "Anie Nicone, Nicene and Post Nicene Fathers." Dr. Schaff's famous religious encyclopsedia was the recent work of this

From these facts it will be seen that we neither

THE WORK ORSCENE AND INDECENT. To return to the matter of making a contract to publish a book without going through the manu-script. This we did on the strength of Dr. Fulton's repatation as a preacher, never supposing for a reputation as a preacher, never supposing for a moment that he would bring to us a work that is obscene and indecent. We have a great many books passing through our hands every day in the year, and it would be atmost impossible for us to read the manuscript—in fact, it is rarely necessary

There is a point at which we are likely to be noti-fied should anything unit for publication acci-dentally slip in, and it was here that "Why Priests Should Wed" was caught and returned to

PRMALE COMPOSITORS OBJECTED.

The superintendent of the book composing-room notified the manager that "Why Priests Should Wed" was creating considerable trouble among the female employees of our book room; that our female help thought it an outrage that we should sak them to nandle the language contained in that book.

We then read the manuscript in our hands and decided that it was in secent.
We then sent for Dr. Fulton and informed him that his book was obscene; that we would not print that his book was obscene; that we would not print to the print of the pri

RELIGION NOTHING TO DO WITH THE CASE. But the religious part of the matter has had nething to do with the case. As to the pressure from the Homan Catholic churches, we have had none; that is, we had had none up to the time of informing Dr. Fulton that we would not go on with his work. As to his charge of cowardice, we have morely to say that we are breaking the contract only because we think we have no right morally to fulfil it; if we thought we had that right we believe the cluizens of Boston know us well enough to know that we would fulfil the same regardless of consequences.

REGARD FOR BMPLOYERS.

REGARD FOR EMPLOYEES.

It is but a few days since we were called upon to show ourselves. The printers of the country had made what we knew to be an unjust demand; we knew that it would be impossible to accede to those demands without jeopardizing their interests as well as our own, and we were almost the only printing establishment in Boston that fearlessly stood out and retraied to accede to those unjust demands regardless of what the consequences might be; and to-day we have the courage to say that, believing we are right in this matter, we will brisk our contract rather than force our help to handle lenguage that is undt, in our opinion, to be read by respectable men and women.

BOSTON CITIZENS STIRRED UP. We also have the courage to say to to Dr. Fulton and to the public to-day—that is, if it is shown that this book. "Why Pricats Should Wed," owing to the motives of its unquestionably sincers and devout author is fit for publication—we will not only recede from our position of printing the book but has our action in this matter has caused Dr. Vittes as our action in this matter has caused Dr. Vittes to loss its probabet, we will publish the book for

him and make good to him any pecuniary damages he has sustained. DEAD AMONG FAITH CURISTS. him and mare good to him any pecuniary damages he has sustained.

We know, probably better than any one else in this city, how much courage it takes to do this, for we have had evidence to-day that this matter has stirred some citizens of Boston and suburban towns to their very depths, and we know that whoever prints or publishes this book will do so at great perit to himself. Still, we are forced to make this offer, as we to-day are placed in a light of deliberately breaking our contract, and we know that only one thing will justify us in doing this—that one thing is to prove that the book is not only unfit for us to print, but is unfit for any establishment in America to print.

MRS. JOHN JACOB ASTOR'S FUNERAL.

The Services to be Conducted by Bishor Potter in Trinity Chapel on Thursday.

Arrangements were completed this morning for the funeral of Mrs. Charlotte Augusta Astor, wife of John Jacob Astor, who died shortly after 8 o'clock last evening and whose remains now he surrounded by flowers in a darkened upper room of the family residence, at the corner of Fifth avenue and Thirty-third street.

It will occur at Trinity Chapel, in Twenty-afth street, on Thursday morning at 10 o'clock, and the following clergymen will omiciate: Bishop H. C. Potter, the Rev. Dr. Morgan Dix, the Rev. Dr. W. R. Huntington, the Rev. Dr. C. E. Swope and the Rev. William B. Friable.

The casket is of cedar, trimmed with purple velvet and with plain silver mountings, and bears a plate with the name of the deceased simply. Everything about it is severely plain and simple, but costly. It will be enclosed in an oaken box. The musical programme has not yet been determined on, though the family has mentioned a few selections whom would be preferred. It will be rendered by the surpliced choir of forty voices, under the direction of Dr. Walter B. Gilbert, organist.

Pretty Sarah Smith's Strange Life and Sad Death-Made Insure by the News of President Garfield's Assassination—Since Then She Has Imagined Herself a Murderess— The Body New Lying in Greenville.

BANCTUARY.

The body of Sarah Smith, a young giri who killed herself by swallowing poison last evening, is lying at the Home attached to Mount Zion Sanctuary, the headquarters of the Faith Curists on the shore of the bay at Greenville, Jersey City, and for the first time since the dedication of the sanctuary six years ago death has entered it.

The leaders of the remarkable sect who claim exemption from human this by reason of their faith, explain the presence of death by the fact that the young suicide was not one of the faithful, and not under their treatment for the cure of the insanity, which accounts for her deed.

They tell a strange story about the girl. She lived for years with her aged mother and brother at Rutherford Park, New Jersey. When President

declared that she was unfit to live and frequently attempted suicide.

The brother procured her commitment to the insane asylum on Blackwell's Island. Once her improvement warranted her release, but she was soon taken back again.

About a month ago the brother, who is unmarried and about forty years old, called at the Church of the First Born, which is conducted by the Fatth Curists, on Sixth street, Jersey City, and begged them to admit his sister to the Banctuary at Greenville.

private asylum. Her ill-treatment at Blackwell's Island, he said, necessitated her immediate removal.

Brothers Jackson and Bennett, who saw the man, refused to take the girl, explaining that the sanctuary was not a hospital and that treatment of insane patients was beyond their power, as it would be impossible for the insane to form any conception of faith.

About two weeks ago, while the Faith Curists, who live at the sanctuary, were attending their evening service at the church in Jersey City, Smith drove his sister to Greenville, and left her in the parior of the sanctuary with the lady attendants. When the brothers, who had refused to takefile girl, returned late at night they found her. They took her to the house opposite the sanctuary and cared for her, for, as Brother Jackson explained to The Worklo reporter, human feeling and sympathy would not permit them to turn her away.

She appeared to be suffering from continual melancholy, but attended the praver-meetings at the sanctuary three times a day. Her hearing and sight were very defective. She told Sister Jackson that ice cold shower-baths over her haked body at Blackwell's Island had caused this.

She also showed many punctures on her arms where calloral had been injected.

On Sunday afternoon her brother called and tried to explain his strange way of leaving the girl. He was asked to take her away, but begged again to be permitted to leave her, claiming that he had signed papers at the asylum which would prevent her return forever. He refused to take her and left again alone.

At the moon prayers yesterday Miss Smith was

signed papers at the asylum which would prevent her return forever. He refused to take her and left again alone.

At the noon prayers yesterday Miss Smith was absent. Sister Jackson found her in her room ill. She said that worry caused her sickness. Mrs. Jackson found an empty box which had contained rat poison lying at the foot of the bed, and recognized it as one she sad left half full in a closet.

The girl admitted having poisoned herself. At 7 o'clock she died. Miss Smith was a brunette about twenty-four years of age, and her pretty face has attracted much attention.

Her body lies in the Home awaiting the brother, who left her Sunday with the spoken conviction that she was improving.

The sanctuary and its home and chapel occupy a fine location at the foot of Chapel avenue, near the New York Bay Cemetery. It was organized six years ago by Sister Jackson, her husband and the Rev. Mr. Hancox.

Since then the fame of its prayers and of the healing claimed to be effected within its wails has spread over the land, and afflicted p-ople from most distant cities have journeyed to Greenville to invoke the aid of the alleged miradle-workers.

The death of Surah Smith has been the only gloomy feature of the life of these remarkable people since they settled at Greenville. Brother Jackson said this morning that he expects the brother of the dead girl to arrive to-day.

He does not know the man's first name or address, but relies on the communication of the newspapers.

The Crows Thought Him Possessed of Supernatural Powers and Proof Against Evil.

ally. A year ago one of the young Crows, being ambitions, took part in the annual Sioux sun dance, which is a test young braves undergo to establish their endurance. This young Crow, known as Wraps-Up-His-Tail (Sword-Bearer), dis inguished himself in this dance by being strung up, having thongs run through the muscles of bl shoulders, and suspending there until the flesh gave away. One of the Sloux medicine men gave him, for this display of endurance, a white powder, which, he said, was medicine of such strength that it would not only make him bullet-proof, but would cause his enemies to be destroyed by supernatural power. Upon his return to the Crows, Wraps-Up-His-Tail established himself as a medicine man, and, with his reputation acquired at he sun dance, and the white powder, soon gained rehown. He, with seventeen young bucks, returned from a successful raid after stolen stock near Fort Assinnaboine, and were celebrating their victory at the agency in the usual Indian manner, when the agency in the usual Indian manner, when the sgent ordered them arrested. A courier sent to Fort Custer, ten miles north, brought five troops of cavairy there in a very short time. These troops, according to law, could only protect property and life, otherwise the whole business would have been squelched at once and the ringl aders captured. This outbreak resulted in an Indian inspector being sent out from Washington and a Bragadier-General from St. Paul. This took time, which left the Indians under the impression that Wraps-Up-His-Tail's medicine was good. At this time there was not a single Indian on the Reservation that did not believe that Wraps-Up-His-Tail possessed supernatural powers.

They recited instances of his making water boil without fire, or waving his hand and the grass dried up, a pony kicking him and he waved uis hand and the pony uled. He always carried a sword which, he said, by waving in the face of his enemies, would cause them to got o siecy, and from this was sometimes called Sword-Bearer. His nodian name was thesee-to-Pagh. Last fail Sitting Buil, with a large party Sloux, valied the Crows, and they would refer to their battlee, telling how many soldlers they had killed and what good times they now had being fed and not required to farm. Kitty Kaneuac's Strategy.

(Nathom (Wis.) Special to the Inter Ocean.)

A sensation has been caused in this neighborhood by the romantic marriage of Miss Kanouse, daughter of Ira Kanouse, a farmer of the town of Dunn, this county, and grand-daughter of ex-Gov. William K. Taylor, of Wisconsin, and niece of Theo. D. Kanouse, now of Dakota, but formerly Prohibition candidate for Governor of this State. The young people around Miss Kanouse's home produced the cantata of "Queen Esther" in the city of Stoughton a few evenings since, and on its conclusion Kitty threw aside the fancy costume of a chorus girl, in which she had appeared so prettily, and giving her father, who was awaiting her in the audience, the slip, was soon with her lover, Grant Sheetter, a young farmer. Together they hastily drove to the village of Oregon, ten miles distant, and happily consummated love's young dream. Mr. Kanouse, who was strongly cuposed to young Sheetter's attention to his daughter, telegraphed the sheriff to capture the young people, and made other frantic endeavors to find them, but all to no avail. They have since been forgiven, however, and all is serene in the Kanouse household, though the neighborhood is in a flutter.

Porbidden by His Physicians to Leave His Home at Scranton - Officials of the Knights Try to Keep the Startling Intelligence a Secret-Excitement Among the General Master Workman's Friends.

(SPECIAL TO THE WORLD, PHILADELPHIA, Dec. 18.-Information was eceived this morning at the Knights of Laoor headquarters in this city to the effect that General Master Workman Powderly had been stricken with a severe hemorrhage the lungs at his home in Scranton.

The news came over a private wire from Scranton to the Broad street headquarters, and was received by John W. Hayes, Secretary of the General Executive Board. It created a great deal of excitement among Powderly's friends and the clerks, but everybody about the establishment was instructed to keep the matter a profound secret.

The greatest precautions were taken to prevent the news from reaching the outside. The General Executive Board had assembled at the headquarters to hold their mouthly meeting and, with the exception of Mr. Powderly and Albert A. Carlton, all the members were present and ready for business when the startling intelligence was re ceived.

Mr. Powderly was to have left his home in Scranton early yesterday forenoon, but the sudden and unexpected attack which came upon him almost completely prostrated him and rendered a trip to this city out of the
